

# How to Donate Items Using Benevolist.org

*Make a Difference – One Item at a Time*

Now you can donate items to local collection drives online – quickly, easily, and with confidence. Watch our Donor Walkthrough Video to see just how easy it is to give!

When you view a Benevolist drive page, you'll see a curated list of requested items from trusted retailers (e.g. Amazon, Walmart, Target, The Home Depot). Each item shows a description, price, and how many are still needed.

## How It Works:

- 1. Select a Drive** — Click the link or scan the drive's QR code.
- 2. Choose What to Give** — Browse requested items; pick one or more to donate.
- 3. Complete Your Purchase** — The checkout process runs through the retailer's site.
- 4. Ship Directly to the Drive Location** — Your donation is sent straight to the organizer's drop-off address — you don't need to manage delivery.

It's that simple! Your gift goes exactly where it's needed, helping nonprofits, schools, and community groups meet real, urgent needs — without the stress of drop-offs or logistics. Benevolist.org lets anyone, from anywhere, contribute meaningfully to collection drives.

***Together, we make giving simple.***
